A daily life comedy on a single cell level!

An animated comedy about everyday school kids and their friendships, their parents and all their efforts to fit in. The series follows the adventures of a twinkie-eating grade school amoeba trying to find his place in a single-cell world.

Set in Small Pond, Squish's home town looks suspiciously like any ordinary suburb, with its tidy streets, schools and homes...with one small difference: Small Pond is inhabited solely by single-celled creatures... These guys act just like us with a few unicellular quirks: algae are the cool kids, parasites can't be trusted and, of course, bacteria always make a mess of everything.
