Adolescence is a tragedy. Yet, thinking about it, it's also a comedy. So, to tell the story of adolescence, why not rely on the greatest playwright of all time?

In this series, Thomas, our Othello, is no longer the brave leader of the Venetian army, but the unflappable leader of a Parkour crew. By his side, we find the good-humoured Michele and the quick-witted Gaia. They all get along well, until they meet Beatrice Virgili, the most beautiful girl in school, who both Thomas and Gaia end up falling for. When an intense romance develops between Beatrice and Thomas, Gaia, struck with envy towards her friend, hatches a meticulous plan to separate the two lovers. Gaia's underhanded persuasion tactics take effect and Thomas' insecurities erupt into a blind jealousy that ends up destroying his love for Beatrice and his friendship with Michele. In a season finale where no one comes out on top, the real tragedy for the protagonists is their awareness of adulthood and their sense of disenchantment whilst also having the opportunity to investigate their own frailties, work through their mistakes or, simply grow up!

KAAMELOTT

Holy Grail! A French cult series, filled with brilliant, witty, sometimes absurd humour.

Kaamelott delves into what's hidden behind the bright Legend of King Arthur and his Knights of the Round Table: the comic motivation for the series relies on the opposition between the grandeur of the Arthurian legend and its hypothetical mediocrity in truth. In other words, the humorous interpretation of the legend makes viewers dive into reality behind the myth.

While the series takes place in the 5th century, it uses our modern language and situations to create a distortion between the supposedly noble and epic myth and our 21st century preoccupations and lifestyle.

A look at History through a twisted modern angle, following the legacy of the Monty Python's offbeat tone.
